- Matching range of LCD monitors and accessories
- 2 year warranty

Navigation

Digital Yacht includes charting software as standard with a GPS interface. We offer Winchart Planner software in the box with C-Map MAX compatability. It comes with a background world chart - just unlock optional C-Map MAX charts for stunning world wide detail Alternatively ask for any make of leading charting software to be factory fitted, tested and set up at a surprisingly low price

And Add Radar Too With Nobeltec....

The CF50 forms the ideal PC processor for Nobeltec's range of PC based radar and electronic charting systems. A 2kw 20" radar-plotter system starts from just £1595 inc vat turning your CF50 into a powerful multi function device. Call for catalogue

The CF50 from Digital Yacht measures just 160 x 55 x 250mm and runs directly from your 12V on board power system. It boasts a powerful Intel M processor, 256MB RAM and a 40GB hard drive with CDRW/DVD drive and full range of interfaces.

With its minuscule dimensions, the CF50 is small enough to fit on any boat but boasts a powerful Intel M 1.4GHz processor, 256MB RAM and a rugged 40GB hard drive - plus a DVD/CDRW drive for movie playback and installing the latest applications

The economics also make sense - with one product offering navigation, communication and entertainment functions at an incredibly attractive price - what other system can offer even just a 15" C-Map colour chart plotter for the same price?

The bundle offer here includes the main CF50 PC, 15" Prolite monitor with trunnion mounting, Windows XP Home, Winchart Charting software, DVD playback software and a cordless keyboard and mouse for the sleekest of installations. Everything you need, right out of the box - even a NMEA GPS interface cable. Great performance and great value from Digital Yacht

Plus, we've added all the connectivity you need with USB, Firewire/IEEE1394a, RS232/NMEA serial, 10/100MB network, stereo sound and VGA monitor capability so your CF50 stays at the forefront of technology. Digital Yacht - serious technology and serious value!
