

# CP3000

## WIDESCREEN NAVIGATION PARTNER

Boasting a 7 inch high resolution 800 x 480 sunlight viewable 16.9 wide screen display, the CP3000/3001 can deliver 10' accuracy through a WAAS GPS receiver. Fully equipped with a swivel bracket and flush mount hardware, the CP3000/3001 connects to a compatible Standard Horizon VHF for DSC-Distress and position polling functions. Connect the optional FF520 Fish Finder and transducer to locate fish and record water temperature. Dedicated MARK, ROUTE, and GO TO keys deliver fumble free operation with 5 user programmable hot keys for navigation displays.

### CUSTOMIZABLE DISPLAY WINDOW

Each data display window can be customized to suit the needs of any mariner such as speed, course over ground, bearing, depth, wind speed, and water temp. Choose from the list of options for each data field on the display.

### LARGE 7" LCD

Large wide aspect ratio to see more cartography on the large display.

### FIND FISH AND MORE

Connect the optional FF520 and the CP3000/3001 becomes a full function 50/200 kHz fish finder shown on a full page or a split Chart/fish screen.

### FEATURES

- 7" DIAGONAL LCD WIDESCREEN DISPLAY
- SEE MORE CARTOGRAPHY ON DISPLAY
- HIGH RESOLUTION 800x480
- 300MHz PROCESSOR WITH GRAPHICS CONTROLLER: BLAZING FAST MENU OPERATION AND SWIFT RELOADS.
- SHOWS TEXT LIKE A PAPER CHART
- SWIVEL MOUNTING BRACKET. EASY ADJUSTMENT FOR MULTIPLE VIEWING ANGLES
- 3 YEAR WATERPROOF WARRANTY

### EXTERNAL GPS ANTENNA (CP300)

This CP300 system comes with an external Smart WAAS GPS Antenna. The Smart antenna is supplied with 30' of wiring which can be cut and spliced for easy installation.

### ADJUSTABLE SWIVEL MOUNT

Adjustable swivel mount comes standard on the CP300/3001 and the CP180/180

## CP3000i

The CP3000i comes complete with the GPS WAAS antenna integrated into GPS Chart Plotter. The CP3000i is easily mounted in any location with a clear view of the sky - A perfect space saving solution.

## FF520

### FIND FISH AND MORE

The Standard Horizon GPS chartplotters combined with the sonar performance of the FF520 creates the most advanced marine navigation system available. The FF520 displays sonar echo returning from the bottom, plus a range of fish targets. Plus 2X and 4X zoom and Sensitivity Time Control (STC) which reduces surface clutter on the display by reducing echoes from water disturbances.
