

IM-DND-50 Miniature Waterproof Dome Camera

The Iris Surveillance IM-DND-50 Waterproof Miniature Dome Camera is perfect for environments that are subject to extreme conditions and where aesthetics are of optimum importance.

Measuring a mere 72mm in diameter and coming supplied in your choice of either chrome, white or high polish finish, the camera's compact design can be installed underneath flybridges or radar arches allowing coverage of blind spots and security hot spots.

Constructed from a lightweight environmentally coated aluminium, the camera is quick and easy to install and set-up. Surface mounting adapters are also available to allow positioning virtually anywhere to achieve perfect results.

Our most popular camera, the IM-DND-50 is easy to install, cost effective and compact, looking perfectly at home on all luxury motor boats.
