

Small. You asked for it – we delivered! Introducing the new TracVision M3.

The world's smallest, fully stabilised, mobile satellite television antenna system!

Time to put the DVDs away and welcome aboard live satellite TV. Introducing the newest addition to the KVH TracVision family – the TracVision M3 – bringing smaller boats the excitement and variety of satellite TV programming wherever you cruise. Suited for boats as small as 25 feet, it's the smallest, simplest, most powerful way to get all of the live entertainment you've been looking for. And with an advanced 37 cm antenna design, it has signal strength, reception, and coverage comparable to 45 cm antennas. Crystal-clear TV proves that less is more!

The TracVision M3's breakthrough technology is evidence that great things come in small packages. Everything you need for satellite TV on your boat comes in one single box, all ready to connect to your boat's 12-volt power supply, satellite receiver, and TV. Enjoying live TV on-the-go or at the dock has never been so easy! With a TracVision M3 onboard, turn an ordinary boat trip into a cruise!

Small

Simple. We made it easy in every way.

TracVision M3 has all the features that you've been asking for in an easy-to-operate system. It is powerful technology made simple. Bundled with KVH's brand new stylish multi-service interface box, you get a complete turnkey solution designed for simplicity and ease, just like you're used to at home! One cable, a 12-volt connection, connect to a satellite TV receiver and a TV and...you get the picture!

- **Simple installation and set-up** – single cable and multi-service interface box with LCD
- **Simple operation** – automatically finds the satellite for crystal-clear TV on-the-go!

TracVision M3 Antenna

Single coax cable design

Multi-service Interface Box

Video OUT to Satellite Receiver
12-volt Power IN

Simple

Powerful. Offshore coverage comparable to 45 cm antennas!

Small enough and light enough for sailboats and smaller powerboats, our breakthrough, super-efficient 37 cm antenna gets crystal-clear reception and provides coverage comparable to 45 cm antennas, even while cruising to your destination. And its rugged, reliable, and compact design will provide years of trouble-free operation. Unlike products designed for at-anchor or coastal use, the TracVision M3 meets the demands unique to smaller vessels and sailboats. Salt, sun, and sea; coastal or offshore; anchored or full throttle – bring it on!

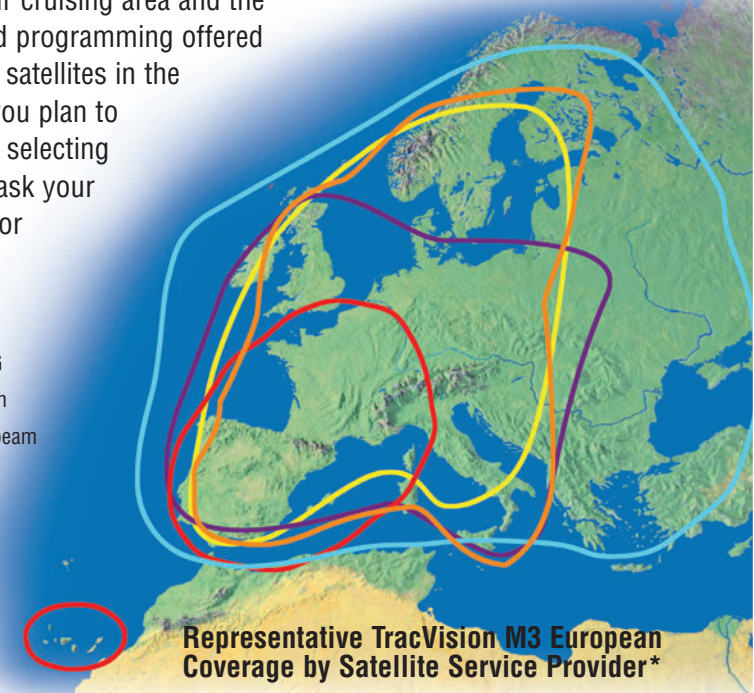

- Dynamically stabilised in-motion operation
- Fast, powerful, ultra-quiet motors; no cable wrap
- Fully automatic satellite acquisition
- Access to hundreds of channels of news, weather, sports, and movies!
- User-friendly operation
- Superior warranty backed by KVH's Certified Support Network (CSN)

Powerful

The small, simple, and powerful new TracVision M3 joins the distinguished KVH TracVision family. TracVision systems are also available with 45 cm, 60 cm, and 82 cm antennas, so always consider your cruising area and the coverage and programming offered by television satellites in the area where you plan to travel. When selecting an antenna, ask your KVH dealer for details.

- Astra 1H & 1G
- Astra 2A South
- Hotbird Widebeam
- Hotbird
- Hispasat

Smallest stabilised TV antenna in the industry – breakthrough technology designed specifically for vessels as small as 25 feet.

Small

Comes complete with KVH's stylish multi-service interface box and compact antenna for easy installation and operation.

Simple

Super high-efficiency antenna design delivers performance comparable to larger 45 cm antenna systems.

Powerful

40% SMALLER than 45 cm systems, but just as powerful!

Specifications

Antenna Dish Diameter:	37 cm
Radome Diameter/Height:	39 cm/44 cm
Antenna Weight:	8.6 kg
Receiver Dimensions:	28 cm x 22.8 cm x 6.6 cm
Minimum EIRP:	50 dBW
Power:	4.5-5 amps @ 12 volts DC
Satellite Services Supported:	Any high-powered European DVB satellite
LNB:	Single-output
Warranty:	2 years parts, 2 years labor

KVH – The leader in mobile satellite TV and communications systems

KVH Industries is the world's leading provider of mobile satellite television and communications antenna systems and has been serving the marine industry since 1982. With more than 100,000 mobile satellite antennas sold, KVH has supplied more in-motion satellite TV and communications systems for mobile applications than any other manufacturer in the world. In the marine industry, KVH TracVision and TracPhone® systems have won the prestigious NMEA "Best Product Awards" for the past 8 years in a row!

KVH's commitment to quality can be seen in the company's reliable products as well as an array of options that provide global product support to every customer. Wherever you travel, whatever KVH product you own, you can be certain to receive outstanding support and service through KVH's product and customer support programs. An ISO 9001:2000-certified organisation, KVH meets the highest international standards for quality.

However, don't take our word for it. Just look around. In any harbor, in any marina around the world, you'll see more KVH TracVision antennas on more boats than any other brand. Consumers, boatbuilders, and marine electronics experts agree – when you choose KVH, you choose the best!
